## MUSIC-ORGANIZER v7.0

By Vlad Feldfix

---

### Program Description

This is a quick and easy app to help you sort your newly downloaded music files.

### Using Instructions:

1. Make sure all your newly downloaded files are named in the following format:  
Artist name - Song name.mp3
2. Go to settings:
  - 2.1. Insert the location of the unsorted media (new files). E.g.:  
D:\Users\me\Desktop\New folder
  - 2.2. Insert the location of your music folder
3. Click on RUN
