

## Music-Organizer v9.0

---

### First setup:

1. Open Music-Organizer.exe
2. Click 2 to edit settings [this needs to be done only on the first use]
3. Insert the path to the newly downloaded music
4. Insert the path to your music folder. [e.g. C:/Users/Me/My Music]

### Regular use:

1. Go to your newly downloaded music location and make sure that every new song is in the following format: *Artist - Song name.mp3*
2. Open Music-Organizer.exe
3. Click 1 to run the program
4. Click ENTER when it is done running
5. Click 4 to EXIT
